# **PHYSICIAN FACULTY ROSTER**

\*\*NOTE\*\* - This instruction sheet is for Family Medicine ONLY. Each specialty has their own definition of Core Faculty and required list of faculty to include. For illustrative purposes ONLY.

FACULTY DATA: List all physician faculty who have a significant role (teaching or mentoring) in the education of residents and who have documented qualifications to instruct and supervise. List the FM physician faculty in your program who devote more than 200 hours per year to resident education (refer to the Program Requirements) in the following order: (1) full-time, (2) part-time, and (3) volunteer faculty.

Other Faculty: After listing the FM faculty, identify the primary physician faculty members responsible for teaching FM residents in the following areas (listed in this order): Human Behavior/Mental Health; Adult Medicine; Cardiology; Critical Care; Obstetric Care; Gynecologic Care; Surgery; Orthopaedics; Sports Medicine; Emergency Medicine; Neonates, Infants, Children and Adolescents; Older Patient; Skin. Provide a one page CV for anyone who is not ABMS-certified.

Faculty-Resident Ratio: A full-time commitment is at least 1400 hrs/yr (or 27 hrs/wk) devoted to the residency spent in resident administration, resident teaching, resident precepting and attending duties, exclusive of time spent in direct patient care without the presence of residents. All programs in operation must have at least 2 FM faculty members (the PD and one other faculty member) who devote at least 1400 hrs/yr to the program. Additionally there must be 1 full time equivalent (FTE) FM physician faculty for every 6 residents in the program. Do not count the PD in the faculty-to-resident ratio. Once a program has 2 full time faculty members, several faculty can make up the remaining FTE: for example, 2 faculty who are half time (700 hrs/yr or 14 hrs/wk) constitute 1 FTE.

## All physician faculty must:

- •devote sufficient time to the educational program to fulfill their supervisory and teaching responsibilities and demonstrate a strong interest in resident education:
- •administer and maintain an educational environment conducive to educating residents in each of the ACGME competency areas;
- •participate in faculty development programs designed to enhance the effectiveness of their teaching and to promote scholarly activity;
- establish and maintain an environment of inquiry and scholarship with an active research component;
- •regularly participate in organized clinical discussions, rounds, journal clubs, and conferences;
- encourage and support residents in pursuing scholarly activities

A portion of the faculty must be indicated as core physician faculty. All physicians who devote at least 15 hours per week to resident education and administration are designated as core faculty. All core physician faculty should:

- evaluate the competency domains;
- work closely with and support the program director;
- assist in developing and implementing evaluation systems; and
- teach and advise residents.

Program directors will not be designated as core faculty.

CVs must be provided for the program director, any Family Medicine faculty member who is not ABFM-certified, and any other faculty member who is not ABMS-certified.

Continued Accreditation programs: A CV is only required for the program director.

New Applications and Initial Accreditation programs: A CV is required for the program director and each active physician faculty member that has been designated as a "Core" faculty member on your roster.

		Based			ry and Seco			No. of	Average	Hours Pe	er Week S	pent On
Name	Core Faculty	Mainly at Core Inst.	Specialty / Field	Cert	Original Cert Year	Cert Status	Re-cert Year	Years Teaching	Clinical Super- vision	Admin	Didac- tic Teach- ing	Re- search
	1											
			_	_	_	_	_					
			_	_	_	_	_					

	ı	-	-	-	ı			

Certification in the primary specialty refers to ABMS Board Ce tification. Certification for the secondary specialty refers to sub-board certification. If the secondary specialty is a core ACGME specialty (e.g., Internal Medicine, Pediatrics, etc.), the certification question refers to ABMS Board Certification.

Actual Ratio	
Physician Faculty / Residents:	: 0.0
Core Physician Faculty / Residents:	: 0.0
Program Director is not included in core faculty	

# **RESIDENT APPOINTMENTS**

*The term resident is used to	describe any physician in gra	aduate medical education:	this includes interns.	residents, subspecialty	residents and fellows.

Describe how the residents will be informed about their assignments and duties during residency. [The answer must confirm that there are skills and competencies for each assignment and for each year, and that these will be readily available (hard copy, electronically, listserv, etc.) to all residents.]

Will there be other learners (such as residents from other specialties, subspecialty fellows, nurse practitioners, PhD or MD students) in the program, sharing educational or clinical experiences with the residents? If yes, describe the impact those other learners will have on the program's residents.

Describe how the program will handle complaints or concerns the residents raise with faculty or the program director. (The answer must describe the mechanism by which individual residents can address concerns in a confidential and protected manner as well as steps taken to minimize fear of intimidation or retaliation.)

# **EVALUATION**

- 1. Using the tool below (Add new assessment method):
  - a. Provide the methods of evaluation used for assessing resident competence in each of the six required ACGME competencies
  - b. Identify the evaluators for each method (e.g., If performance in patient care is evaluated at the end of a rotation using a global form completed by faculty and senior residents and also using a checklist to evaluate observed histories and physicals by the ward attending and continuity clinic preceptor, then under patient care select global assessment for a method and faculty member and senior resident for evaluators and care. Then add patient care again as a competency and select direct observation for a method and attending and preceptor as the evaluators).

Competency	Assessment Method	Evaluator(s)
Interpersonal & Communication Skills	Direct observation
