

## IPE Readiness Checklist for GME Programs

Use this tool to reflect on how well your program fosters interprofessional education and collaboration. Check “Yes” if the item is consistently true for your program.

Domain	Item	Yes	No
Team-Based Culture	Residents regularly participate in interdisciplinary rounds		
	Program leadership models respect for all team roles		
	Teamwork skills are explicitly discussed during orientation or teaching		
Curriculum & Learning Activities	Simulation includes interdisciplinary team members (e.g., nursing, pharmacy)		
	Residents receive training on communication across professions		
	IPE concepts are integrated into case conferences or M&M discussions		
Faculty Engagement	Faculty are trained to teach and model interprofessional collaboration		
	Faculty from non-physician roles contribute to educational activities		
Feedback & Assessment	Residents receive feedback from non-physician team members		
	Evaluations assess collaboration and team-based care competencies		
Program Improvement	Program reviews IPE and teamwork concerns during as part of rotation evaluations during the APE		
	Program uses feedback from nursing/allied health staff to improve training		

Consider next steps: What is one item you could address in the next 3–6 months?
