

# Are all your programs ready for a site visit in the next five years?

Partners® has created a **“Readiness Assessment”** process to assess critical site visit components in an efficient manner which requires minimal time commitment from your program administrative staff.

Here is a sample that you can use to evaluate your programs’ supervision policies:

## SUPERVISION POLICY

Level 1	Level 2	Level 3
<b>This supervision policy has all major components</b>  1. Up to date language 2. PGY-1 requirement for direct supervision 3. When trainee need to inform an attending 4. Articulated levels based on training year	<b>This supervision policy is missing one of the major components</b>	<b>This supervision policy is missing more than one of the major components</b>

## A Partners® Readiness Assessment includes:

- An in-depth assessment of your programs’ areas of strength and where they might fall short of current ACGME/Specialty-specific requirements
- Uncovering trends across your program to ensure that you are targeting necessary leadership development topics

## Areas\* reviewed by experts in GME in Partners® readiness assessment:

Here are a few of the 12 areas included in the Partners® Readiness Assessment:

- |                                 |                      |
|---------------------------------|----------------------|
| 1. ACGME Surveys (past 2 years) | 3. Faculty Roster    |
| 2. Block Diagram                | 4. Sample Curriculum |

**\*These GME areas have been vetted by GME experts in 2024 in order to create an objective, evidence-based, and streamlined process.**

A full readiness assessment would include the following:

1. Dashboard reports indicating the readiness status of each program for a site visit
2. Trends across the program to identify leadership/faculty/administrator development topics
3. Other reports as requested by the client.
4. Pricing is based on number of programs assessed
